Blue links for the therapist and academic supervisor will allow the parent to click on the name and then e-mail them. Even though the teacher name is in blue, there is no e-mail address associated with the teacher name at this time. Parents will not be able to contact teachers directly via e-mail. The academic supervisor and therapist will continue to be the point of contact.

Class Averages – You will notice that the score in the term column is listed in blue. By clicking on that number you will be able to view the individual assignments and grades that were used to calculate the term grade as a **Class Score Detail** page.

Key Concept: Any time you see something displayed in blue, it means that there is a link to more information.

Class Score Detail page – Displayed by clicking on the score in the level column of the **Grades and Attendance** page.

* - Score is exempt from final grade. ** - assignment is not included in final grade
 † - This final grade may include assignments that are not yet published by the teacher. It may also be a result of special weighting by the teacher.

The **Class Score Detail** page displays specific class assignments and grade information. The Assignment, the Assignment Category, and the Score may link to more information.

The **Class Score Detail** screen will list the course name, the teacher's name and the assignment name.

Key Concept: If there is an assignment listed but there is no score – check the date. This may be an assignment that has been listed to make parents aware of an upcoming due date. Teachers also may use special codes for assignment scores to convey information to parents.

The **Teacher Comments** page allows you to view any comments that teacher may have submitted for your student. From here you are able to view your student's current schedule with teacher names and comments.

Comments – Comments are entered by the teacher about your student prior to the scheduled treatment team meeting. There should be at least one comment per month entered for each teacher. Teachers with students who are in study hall are not **required** to enter comments; however, they may choose to do so. Teachers are to keep comments for two months visible to parents. Sometimes comments may be entered more often than once a month. Teachers may enter comments more often when things occur in the classroom they feel you should be made aware of.
